

Subpart B—Other Applicable Provisions

WAIVERS OF THE NONMANUFACTURER RULE FOR CLASSES OF PRODUCTS AND INDIVIDUAL CONTRACTS

§ 121.1201 What is the Nonmanufacturer Rule?

The Nonmanufacturer Rule is set forth in § 121.406(b).

§ 121.1202 When will a waiver of the Nonmanufacturer Rule be granted for a class of products?

(a) A waiver for a class of products (class waiver) will be granted when there are no small business manufacturers or processors available to participate in the Federal market for that class of products.

(b) *Federal market* means acquisitions by the Federal Government from offerors located in the United States, or such smaller area as SBA designates if it concludes that the class of products is not supplied on a national basis.

(1) When considering the appropriate market area for a product, SBA presumes that the entire United States is the relevant Federal market, unless it is clearly demonstrated that a class of products cannot be procured on a national basis. This presumption may be particularly difficult to overcome in the case of manufactured products, since such items typically have a market area encompassing the entire United States.

(2) When considering geographic segmentation of a Federal market, SBA will not necessarily use market definitions dependent on airline radius, political, or SBA regional boundaries. Market areas typically follow established transportation routes rather than jurisdictional borders. SBA examines the following factors, among others, in cases where geographic segmentation for a class of products is urged:

(i) Whether perishability affects the area in which the product can practically be sold;

(ii) Whether transportation costs are high as a proportion of the total value of the product so as to limit the economic distribution of the product;

(iii) Whether there are legal barriers to transportation of the item;

(iv) Whether a fixed, well-delineated boundary exists for the purported market area and whether this boundary has been stable over time; and

(v) Whether a small business, not currently selling in the defined market area, could potentially enter the market from another area and supply the market at a reasonable price.

(c) *Available to participate* in the context of the Federal market means that contractors exist that have been awarded or have performed a contract to supply a specific class of products to the Federal Government within 24 months from the date of the request for waiver, either directly or through a dealer, or who have submitted an offer on a solicitation for that class of products within that time frame.

(d) *Class of products* is an individual subdivision within an NAICS Industry Number as established by the Office of Management and Budget in the NAICS Manual.

[61 FR 3286, Jan. 31, 1996, as amended at 65 FR 30863, May 15, 2000]

§ 121.1203 When will a waiver of the Nonmanufacturer Rule be granted for an individual contract?

An individual waiver for a product in a specific solicitation will be approved when the SBA Associate Administrator for Government Contracting reviews and accepts a contracting officer's determination that no small business manufacturer or processor can reasonably be expected to offer a product meeting the specifications of a solicitation, including the period of performance.

§ 121.1204 What are the procedures for requesting and granting waivers?

(a) *Waivers for classes of products.* (1) SBA may, at its own initiative, examine a class of products for possible waiver of the Nonmanufacturer Rule.

(2) Any interested person, business, association, or Federal agency may submit a request for a waiver for a particular class of products. Requests should be addressed or hand-carried to

Small Business Administration

§ 121.1204

the Associate Administrator of Government Contracting, Small Business Administration, 409 3rd Street SW., Washington, DC 20416.

(3) Requests for a waiver of a class of products need not be in any particular form, but should include a statement of the class of products to be waived, the applicable NAICS code, and detailed information on the efforts made to identify small business manufacturers or processors for the class.

(4) If SBA decides that there are small business manufacturers or processors in the Federal procurement market, it will deny the request for waiver, issue notice of the denial, and provide the names, addresses, and telephone numbers of the sources found. If SBA does not initially confirm the existence of small business manufacturers or processors in the Federal market, it will:

(i) Publish notices in the Commerce Business Daily and the FEDERAL REGISTER seeking information on small business manufacturers or processors, announcing a notice of intent to waive the Nonmanufacturer Rule for that class of products and affording the public a 15-day comment period; and

(ii) If no small business sources are identified, publish a notice in the FEDERAL REGISTER stating that no small business sources were found and that a waiver of the Nonmanufacturer Rule for that class of products has been granted.

(5) An expedited procedure for issuing a class waiver may be used for emergency situations, but only if the contracting officer provides a determination to the Associate Administrator for Government Contracting that the procurement is proceeding under the authority of FAR § 6.302-2 (48 CFR 6.302-2) for “unusual and compelling urgency,” or provides a determination materially the same as one of unusual and compelling urgency. Under the expedited procedure, if a small business manufacturer or processor is not identified by a PASS search, the SBA will grant the waiver for the class of products and then publish a notice in the FEDERAL REGISTER. The notice will state that a waiver has been granted, and solicit public comment for future procurements.

(6) The decision by the Associate Administrator for Government Contracting to grant or deny a waiver is the final decision by the Agency.

(7) A waiver of the Nonmanufacturer Rule for classes of products has no specific time limitation. SBA will, however, periodically review existing class waivers to the Nonmanufacturer Rule to determine if small business manufacturers or processors have become available to participate in the Federal market for the waived classes of products and the waiver should be terminated.

(i) Upon SBA’s receipt of evidence that a small business manufacturer or processor exists in the Federal market for a waived class of products, the waiver will be terminated by the Associate Administrator for Government Contracting. This evidence may be discovered by SBA during a periodic review of existing waivers or may be brought to SBA’s attention by other sources.

(ii) SBA will announce its intent to terminate a waiver for a class of products through the publication of a notice in the FEDERAL REGISTER, asking for comments regarding the proposed termination.

(iii) Unless public comment reveals that no small business manufacturer or processor in fact exists for the class of products in question, SBA will publish a final Notice of Termination in the FEDERAL REGISTER.

(b) *Individual waivers for specific solicitations.* (1) A contracting officer’s request for a waiver of the Nonmanufacturer Rule for specific solicitations need not be in any particular form, but must, at a minimum, include:

(i) A definitive statement of the specific item to be waived and justification as to why the specific item is required;

(ii) The solicitation number, NAICS code, dollar amount of the procurement, and a brief statement of the procurement history;

(iii) A determination by the contracting officer that there are no known small business manufacturers or processors for the requested items

§ 121.1205

(the determination must contain a narrative statement of the contracting officer's efforts to search for small business manufacturers or processors of the item and the results of those efforts, and a statement by the contracting officer that there are no known small business manufacturers for the items and that no small business manufacturer or processor can reasonably be expected to offer the required items); and

(iv) For contracts expected to exceed \$500,000, a copy of the Statement of Work.

(2) Requests should be addressed to the Associate Administrator for Government Contracting, Small Business Administration, 409 3rd Street, SW., Washington, DC 20416.

(3) SBA will examine the contracting officer's determination and any other information it deems necessary to make an informed decision on the individual waiver request. If SBA's research verifies that no small business manufacturers or processors exist for the item, the Associate Administrator for Government Contracting will grant an individual, one-time waiver. If a small business manufacturer or processor is found for the product in question, the Associate Administrator will deny the request. Either decision represents a final decision by SBA.

§ 121.1205 How is a list of previously granted class waivers obtained?

A list of classes of products for which waivers of the Nonmanufacturer Rule have been granted will be maintained in SBA's Procurement Automated Source System (PASS). A list of such waivers may also be obtained by contacting the Office of Government Contracting at the Small Business Administration, 409 3rd Street, SW., Washington, DC 20416, or at the nearest SBA Government Contracting Area Office.
